

Research Concern Reporting Form

For integrity, ethics, safety, security, and compliance concerns

How to use this form

Provide as much detail as you can. You may report anonymously; however, providing contact information can help CoU follow up. Do not include sensitive personal data unless necessary.

What to include

Project title and link (if applicable).

People involved (names, roles, affiliations).

Description of the concern, dates, and supporting evidence.

Whether any immediate risk exists (people, community, data, or systems).

Where to send

Upload through the OpenPlus reporting portal or email the Research Integrity Office as listed on the Research Code of Conduct webpage.
